Mr. Michael Belle, President
New Century Renovations
12631 Centurion Lane
Fairfax, VA 22033

Dear Mr. Belle,

We contracted New Century Renovations to finish our basement in mid 2005. It was an extensive refinishing project. We wanted to turn this space into usable living space for our family. We wanted it to include a small kitchen, a bedroom, a bathroom, recreation area and a TV area. There were many selections of cabinets styles, granite countertops, tiles and many other options that we needed to make. Bill Poe was very helpful and timely in providing the places I needed to visit, the people I needed to meet with to make these selections and he was very good with making sure that our selections were carried out correctly. The work was done very professionally. We are very pleased with the finished product.

We have been in quite a few other finished basements and they are not completed to the higher quality that we feel ours is. We will highly recommend New Century Renovations to anyone who may be looking to do work of this kind to their home.

Ceil and Dennis
